CAR PARK

The rules here are for the safety of all.

Parents parking in the middle aisles must get out of their cars and come and collect their children. Stopping near the office steps or behind other cars is strictly prohibited.

In the event of wet weather, parents must come and collect their child/children from the steps. Children will not be permitted to walk down the centre aisle unless accompanied by an adult.

- Walking to and from the school must only be via footpaths or the center aisle.
- Please do not park in the disabled car parks — these are needed and are used by school families.
- Everyone is to walk to cars along the footpaths or the walkway between the centre row of cars.
- Children must be accompanied by an adult to access the cars in the middle parking bays.
- Cars must be in a parking bay before children leave or enter the vehicle.
- No-one is to be dropped off at the entrance to the school building. This causes a real safety hazard for those families using the correct pathway.
- It is prohibited to park or drop off students in the loading bay just past the office.
- Cars must not park in front of the Parish Centre Carport, this needs to be kept clear at all times.
- Cars must not park on the Parish/Church lawn.
- The two “keep clear” bays at the top of the central car park, closest to the office must not be used at any time as this limits the flow of traffic.
- The maximum speed limit in the car park is 10kmh.
- When exiting the car park all cars must turn left.

When leaving the car park, please make sure you stop before the footpath to enter into Monash Rd. Pedestrians, cyclist and students use this footpath.

When parking in the middle bays, please allow room for pedestrians. The walkway between the centre two of cars is marked with narrow white lines. 4WD owners - please be conscious of your spare wheel and tow bars blocking paths when you back into bays along the footpaths.

The above photo (1) clearly shows that a number of children are below car heights and therefore cannot be easily seen. On wet days visibility is even harder. It is so important that all children must be accompanied by an adult when travelling along the middle aisle of the car park. Photo 2 shows that the children can be barely seen for drivers who are travelling in the car park.

**ADULTS, we need to set children a safe example - do not walk through traffic areas; please walk only on the paths.**
