CAR PARK

Think Safe, Drive Safe

For the safety of our children and all adults in our community we request that all drivers slow down and take great care in the car park. We ask that all adults set a good example for our children. *Please do not walk through traffic areas and walk only on the paths.*

Children will not be permitted to walk down the centre aisle unless accompanied by an adult.

- Walking to and from the school **must only** be via footpaths or the center aisle.
- The maximum speed limit in the car park is **10kmh**.
- Please do not park in the disabled car parks — these are needed and are used by school families.
- No-one is to be dropped off at the entrance to the school building. This causes a real safety hazard for those families using the correct pathway.
- It is prohibited to park or drop of students in the loading bay just past the office.
- Stopping near the office steps or behind other cars is strictly prohibited.
- Cars must be in a parking bay before children leave or enter the vehicle.
- Cars must not park on the Parish/Church lawn or in front of the Parish Centre Carport.
- Children must be accompanied by an adult to access the cars in the middle parking bays.
- When exiting the car park all cars must **turn left** during afternoon pick up time.
- Please ensure that you stop at the footpath to enter Monash Road as pedestrians, cyclist and students use this footpath.
- In the event of wet weather parents must come and collect their child/children from the steps.

When parking in the middle bays, please allow room for pedestrians. The walkway between the centre two of cars is marked with narrow white lines. 4WD owners - please be conscious of your spare wheel and tow bars blocking paths when you back into bays along the footpaths.

1.  

The above photo (1) clearly shows that a number of children are below car heights and therefore cannot be easily seen. On wet days visibility is even harder. It is so important that all children are be accompanied by an adult when travelling along the middle aisle of the car park.

2.  

Photo 2 shows that the children can be barely seen for drivers who are travelling in the car park.

Families may use the parish car park but please **do not park on the lawns** as this causes considerable damage to the lawns. Thank you

*Think Safe, Drive Safe.*

*Your Cooperation is greatly appreciated.*
